Notice of Request to Replace Lost Water Share Certificate

Christian Bills claims ownership of 3.6 shares of Class A water in East Mill Creek Water Company. Mr. Bills has indicated that the share certificate is lost, and has requested that it be replaced. The last registered owner of the shares was William T. Shipley in 1944. Pursuant to Utah Code Ann. §70A-8-409.1, another person may file a written notice of objection with East Mill Creek Water Company. Such objection must be filed within 60 days of September 20, 2018. If no objection is filed in that time, a replacement certificate will be issued to Mr. Bills and the original certificate will be permanently canceled.

A written notice of objection shall state the basis for objecting to the claim of ownership of the affected shares, identify the persons the objector believes has a stronger claim of ownership, and be accompanied by written evidence that reasonably documents the basis of the objection to the claim of ownership. Objections shall be delivered to East Mill Creek Water Company, PO Box 9334, Salt Lake City, UT 84109.
